

Carmen Rodriguez Tenreiro, Pharmacist, obtained her BSc degree at the University of Santiago in 2001. In 2007 she was awarded with a PhD title through the University of Santiago. She has broad research experience at the academic and industry level. This is reflected in the publication of several peer-review papers, participation in international congresses and pharmaceutical patents. She is also an expert in research ethics and has experience in vaccine CDP/TPP/protocol elaboration. Above all Carmen is an international expert in Clinical Trials. Since 2007 she has a permanent position as Pharmacist and Data Manager at the Hospital Clínico Universitario de Santiago.
